2.0 Project Overview

The project forms a three month contract to inject a different flavor into the content of localtennisleagues.com to attract visitors who might not have ever considered joining a tennis club. VC understands that the LTL / LTA have limited time resources and we will be expected to work independently.

From our conversation with Paul we understand that the site localtennisleagues.com is performing well for core keywords that include the words “tennis league” but is not performing well for keywords that might be used by tennis players who see the sport as a social / healthy activity.

They might not describe themselves as ‘tennis players,’ but might still be interested in joining a local tennis league as an addition / alternative to the gym / jogging etc. and be 18+.

Objectives	<ul style="list-style-type: none"> To attract the “Wimbledon warriors” into a more structure tennis playing. To encourage engagement in the sport outside of the usual summer / Wimbledon months. To promote local tennis as fun, social, friendly and healthy. To solve the issue of having no one to play with / how to improve their game.
SEO targets	<ul style="list-style-type: none"> To ensure that localtennisleagues.com can be found for alternatives to “tennis league” keywords. To reduce the content focus on ‘tennis leagues’ and create a balance of content that promotes tennis rather than informs on leagues To introduce a number of back links with non tennis league keywords Document and report on findings that could improve conversion / joining rates
Possible Additional keywords:	Local tennis, healthy activities, outdoor activities (with or without geo location), stay healthy for free, what to do locally, learn to play tennis, play tennis, find a tennis partner etc.
Locations	UK / Nationwide / locations of leagues
Audience	B2C, 18+, all genders
Target	Increase in unique user traffic that does not constitute a returning member nor person or users that have discovered the site through “tennis” and “league” keywords.
