SEO Packages

Link Building Packages

No overt blogging, no great focus on Social Media, just excellent Digital Marketing that does not cost the earth

Benedict is a five strong team who work out of a fun energetic office in Wimbledon. We have a low turnover of clients and a high success rate. We are an extremely helpful businesses that thrives on hard work and output works of the highest linguistic, design or code quality.

We do not undertake PPC campaigns nor do we overtly advocate social media marketing or irrelevant blogging. We have the confidence, knowledge and support your SEO requires. See [SEO services](#).

All of our consultants have gone through rigorous training and actively participate in our research programmes each with their own individual field of excellence.

One of the most important parts of our SEO company is research. We 'research search' and pass on the benefits of our analysis on to our clients. We are already known in the UK industry as the most progressive link building service provider.

We can do anything - you are only restricted by your imagination At Benedict we encourage our clients to scale up.

We like to think on an industrial scale. It is not necessary to rely on a single website, when it is possible and affordable to create an internet presence that will rival all your competitors rolled into one.

This might include content strategies, ecommerce sites with additional product, aged domains with topical providence, micro sites geared toward gaining traffic from a single key phrase, geo targeted pages (keyword + location), international sites, Facebook pages, Tweets etc.

We are a B2C / B2B search company that specialises in generating traffic from Google searches, via a collection of techniques that are by far the most advanced currently available on the market. More [about Benedict](#). "We partner with your company to develop a genuine and deserved Google ranking, helping your core digital presence generate increased traffic."

### About: Core Beliefs

We say to our clients that if you want to work with organic search, then you have to play the Google game. [More.](#)

We are not talking about black hat SEO or white hat techniques; we are talking about presenting the most up-to-date, intriguing, searchable and findable digital information, presented in a user-friendly environment that your new customers can rely on, really use and benefit from (and buy from!)

### Which strategy is best for your business?

Which strategy is best for your business can be started by asking the questions "what does success look like", what are you trying to achieve, what is your revenue target, is organic search or traffic from social media channels adequate to generate the necessary conversions? We then translate these aspirations into search traffic numbers and a strategy to achieve them. [More.](#)

**One way of explaining what we do at Benedict** is by referring to SEO as translating a client's information into a format that Google rewards with a high position and hence traffic. Our research is not looking for tricks or coding manipulations. We respect Google.
